# Introduction

## A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

### Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

### Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

### The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table.

The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

## General Information

This book is effective December 7, 2009, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit [www.HermanMiller.com](http://www.HermanMiller.com).

All prices are list prices. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest  $\frac{1}{8}$ ". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

### 20-Day or Less/Assigned Lead-Time Shipments

All products and options in this price book not designated by an Assigned Program icon  will ship in **20 business days or less** after being acknowledged by Herman Miller.

Products and options designated by an  are on the assigned lead-time program and may ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

# Tandem Sling Seating

## Product Information

### Description

This seating product combines either a single row or back-to-back rows of seats or seats/tables in 2- to 7-unit configurations. The base is a black T-beam with polished aluminum legs and nylon glides; the sling seat is vinyl; the table is white laminate with a black vinyl edge; and the arm pads are black urethane. Shipped assembled.

The back-to-back seating product is shipped assembled as 2 single rows with 2 black connectors and hardware to connect the back-to-back rows. A back-to-back configuration that includes a table is shipped with a one-piece table to cover the back-to-back depth; attachment hardware is included.

A fire-retardant sling meets CAL 133 requirements; the sling has seats upholstered in approved fire-retardant vinyl.

### Notes

For configuration options, sequence of components is from left to right when facing unit.

For 2- to 5-unit configurations, 1 table can be specified. For 6- and 7-unit configurations, 2 tables can be specified (1 for each end).

For other configurations, contact Herman Miller Options.

To retrofit single-row seating to back-to-back seating, order back-to-back base connector (TS708) separately.

# Lounge Chair, Metal Legs

LCM.

## Product Information

### Description

This 26<sup>1</sup>/<sub>2</sub>"-high molded plywood chair has natural face veneers, hardwood inner plies, and a 5-ply seat and back. It has a polished chrome-plated 4-leg base and self-leveling nylon glides.

### Notes

Finishes 11, 12, 13, 15, Z8, Z9, and ZQ are stain on birch veneer. These stains allow the wood grain to show through; inner plies are visible. Natural variations in wood grain may affect the appearance of these stain colors.

Avoid placement in direct sunlight.

Stool

# Capelli Stool

KC100.

### Product Information

#### Description

This stool has 2 molded plywood pieces that interlock to form a seat. The 2 pieces lock against one another for a strong and stable structure. The stool has 11 alternating light and dark hardwood inner plies with a light ash face veneer.

#### Notes

For shipping and storage, the stool unfolds and the 2 halves stack together. No tools or fasteners are required.

#### Dimensions

### Specification Information

#### Step 1.

**KC100.**  A \$620

#### Step 2. Finish

**AV** light ash  A +\$0
