# Introduction

## A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

### Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

### Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

### The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table.

The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

## General Information

This book is effective December 7, 2009, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit [www.HermanMiller.com](http://www.HermanMiller.com).

All prices are list prices. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest  $\frac{1}{8}$ ". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

### 20-Day or Less/Assigned Lead-Time Shipments

All products and options in this price book not designated by an Assigned Program icon  will ship in **20 business days or less** after being acknowledged by Herman Miller.

Products and options designated by an  are on the assigned lead-time program and may ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

### Product Information

#### Description

This chair has an AireWeave™ seat-suspension material that is lightweight and breathable and evenly distributes the user's weight over the seat of the chair. The TriFlex™ back provides flexible and continuous support while providing airflow. The chair's Harmonic™ tilt provides continuous balance and lets the body recline naturally, pivoting at the ankles, knees, and hips. The chair has a 5-star base and 3 height-adjustment options: the low-height option has a seat-height range of 15" to 19 1/2"; the standard-height option has a seat-height range of 16" to 20 1/2"; and the extended-height option has a seat-height range of 16" to 21 1/2".

Tilt options include a standard tilt, tilt limiter, and tilt limiter and seat angle. The tilt limiter allows the user to set the tilt range to limit the amount of recline. The tilt limiter and seat angle allows the user to select the tilt range and either a horizontal or 4° forward seat angle.

Back options include a standard version and a user-adjustable lumbar support version. The adjustable lumbar support adjusts 4 1/2" in height and 1" in depth. Both back options include passive PostureFit® at the base of the back, below the beltline, that helps achieve healthier posture and improved lower back comfort.

The chair's TriFlex back can be specified with Latitude™ fabric on the front side. The applied fabric still allows flexible support and airflow.

Fabric cannot be applied to the chair's AireWeave seat.

Seat options include a 17" fixed seat depth or a FlexFront® seat depth that allows the user to adjust the seat depth from 17" to 19".

Arm choices include no arms, fixed arms, or 3-dimensional adjustable arms that adjust the arms 4" vertically, 1 3/8" horizontally, and pivot the arm pads 11° outward and 11° inward.

A fire-retardant chair meets CAL 133 requirements. The chair's seat, back, and tilt covers are manufactured with a fire-retardant additive. The additive does not meet Herman Miller's Design for the Environment criteria.

#### Notes

Chair is tested and warranted for use by persons 300 pounds and under.

To order chair knocked down, contact Customer Care.

For information on casters and glides, see Casters and Glides in Appendices.

# Upholstered Back Kit

MR910

Mirra® Accessories

### Product Information

#### Description

This upholstered back replaces an existing back on a Mirra® work chair. Its TriFlex™ back is upholstered with Latitude™ fabric on the front side. The applied fabric allows flexible support and airflow.

#### Notes

Specify upholstered back kit's frame finish to match Mirra work chair's frame finish.

Existing Mirra chair's lumbar strap or fixed back loop finish should match molded back finish. To change existing chair's lumbar strap finish, order adjustable lumbar kit (MR905A) separately. To change existing chair's fixed back loop finish, order fixed lumbar kit (MR905F) separately.

### Specification Information

#### Step 1.

**MR910** \$139

#### Step 2. Frame Finish

<b>G1</b>	graphite	+\$0
<b>ZR</b>	shadow	+\$0

#### Step 3. Back Finish

<b>G1</b>	graphite	+\$0
<b>ZJ</b>	citron	+\$0
<b>ZK</b>	cappuccino	+\$0
<b>ZL</b>	felt green	+\$0
<b>ZM</b>	alpine	+\$0
<b>ZN</b>	blue fog	+\$0
<b>ZP</b>	terra cotta	+\$0
<b>ZR</b>	shadow	+\$0

#### Step 4. Latitude™ Fabric

See application chart and textiles list for fabric usage and numbers. First 2 digits of number indicate fabric line; remaining digit(s) indicate fabric color.

Price Category 3 +\$40

# Lumbar Kit

MR905

### Product Information

#### Description

This adjustable lumbar support fits into the back of a Mirra® work chair. It adjusts 4½" in height and 1" in depth.

#### Notes

Lumbar kit's support bow finish matches Mirra chair's frame finish.  
Lumbar kit's lumbar strap finish matches Mirra chair's molded back finish.

### Specification Information

#### Step 1.

**MR905A** \$78

#### Step 2. Support Bow Finish

<b>G1</b>	graphite	+\$0
<b>ZR</b>	shadow	+\$0
